Attributes 235.5 Percent Revenue Growth to delivering easy, elegant management of board documents, while elevating organizational performance.

Philadelphia, PA, December 14, 2016 — BoardEffect, the leading board management software solution for mission-based organizations worldwide, today announced it ranked #318 on Deloitte's Technology Fast 500™, a ranking of the 500 fastest growing technology, media, telecommunications, life sciences and energy tech companies in North America. BoardEffect grew 235.5 percent during the period.

BoardEffect's chief executive officer, Todd Gibby, credits BoardEffect's product vision and guiding principles with the company's 235.5% revenue growth; BoardEffect is designed around the work of boards. He said, "We consistently observe boards operating in a series of overlapping cycles. Boards convene on a regular meeting cycle, deliver on a recurring set of annual responsibilities, and continuously work to refresh and strengthen themselves as strategic assets to the organizations they serve. Likewise, BoardEffect's unrelenting emphasis on ease-of-use, security, and configurability mean that BoardEffect gets adopted quickly and with confidence in support of boards as they manage these demanding, interdependent, and mission critical cycles."

"Today, when every organization can be a tech company, the most effective businesses not only foster the courage to explore change, but also encourage creativity in using and applying existing assets in new ways, as resourcefully as possible," said Sandra Shirai, principal, Deloitte Consulting LLP and U.S. technology, media and telecommunications industry leader. "This ingenious approach to innovation calls for the encouragement of curiosity and collaboration both within and outside the office walls."
